McALPINE**

Gateway West & Central June 2021

Dear Neighbour

Please see below this month's update with information on construction activity at the Gateway West & Central projects.

Progress over the past month:

- Completed construction of basement walls and columns of the concrete structure
- Completion of the ground floor slab construction
- Construction of concrete core up to level 7
- Commenced blockwork construction to the basement
- Commenced fin plate welding to the core walls for steelwork connections
- Precast stair installation and landing construction up to level 4

Planned works for June 2021:

- Completion of core construction up to roof level and dismantling of slipform rig
- Installation of stair units and construction of landings within the core
- Further trades commencement to basement upon handover of rooms
- Handover of remaining areas for commencement of blockwork wall construction to the west basement
- Ongoing of welding to the core walls and steel frame commencement mid-June to levels 1-4
- Drainage excavation works and new sewer heading to Dorando Close manhole
- Commencement and completion of Gateway West Piling works
- Commencement of Gateway West structural concrete works to foundations

Foundation pre-employment programme

We are looking for individuals who are unemployed or not currently working in construction but looking to enter the industry. Should we achieve enough candidates for the course, a fully funded pre-employment training programme could be organised by Keltbray who are undertaking the concrete works at Gateway Central and is in conjunction with TfL.

The course would be offered via a virtual classroom so candidates will need access to a computer and the internet. Training includes: Introduction to Construction, Manual Handling, Mental Health Awareness, Resilience Advantage, Asbestos Awareness, Health & Safety Awareness, and attainment of a CSCS card.

Contact Us

For any queries relating to construction works, want to sign up for regular updates, or to join the Whatsapp group:

Email: gatewaywhitecity@srm.com
(Mon-Fri between 8am and 6pm)

For all enquiries outside of these hours, or anything urgent, please use the 24-hour hotline:
0800 061 2132.

*All contact details will be used for the purposes of keeping you up to date with regards development works for the Gateway Central project. This data will not be disclosed to any organisation not associated with the re-development.

24-hour hotline: 0800 061 2132 (Freephone)

Slipform Core Construction Underway

The slipform rig is over halfway to Roof Level. The photo on the right shows the rig at Level 7. The rig will climb to Roof Level allowing the concrete core walls and stairs to be constructed in advance of the steel frame erection

For Health and Safety reasons associated with the pandemic extended hours will continue to be worked in agreement with the LBHF Environmental Health Office. Hours are expected to be worked from 7am – 9pm with noise restrictions in place.
