

# Gateway West & Central July 2021

## Dear Neighbour

Please see below this month's update with information on construction activity at the Gateway West & Central projects.

### Progress over the past month:

- Completion of core construction up to roof level and slipform rig dismantled
- Stair units have been installed and landings constructed within the core
- New trades on site working in the basement area
- Remaining areas of the basement were handed over to the blockwork contractor who has started wall construction to the west basement
- Steel frame installation started to levels 1-4
- Gateway West Piling works, complete and tower crane erected
- Commencement of Gateway West structural concrete works to foundations

### Planned works for July 2021:

- Completion of the basement blockwork walls
- Commencement of MEP (Mechanical, electrical and public health) trades to basement
- Continue constructing elements of the steel structure up to level 8 and roof slabs to the core
- Drainage and concrete construction work to the ground floor
